Call for Participations

Secretariat: IPNTJ, c/o Etchujima Campus of TUMSAT, Tokyo, 135-8533, Japan
Contact: info@gnss-pnt.org, Tel&FAX+81-3-5245-7365
Kyoto, World No.1 Sightseeing City

Kyoto is the tourist jewel in Japan’s crown and a must-see destination for most visitors to the country. Japan's capital from 794 to 1868, Kyoto boasts literally thousands of historic Buddhist temples and Shinto shrines as well as some of Japan's most beautiful gardens and palaces. Kyoto remains a center of traditional Japanese art and crafts, culture, and cuisine. Set in a picturesque basin surrounded by green, wooded hills, the city of Kyoto is designed on a distinctive grid pattern and is easily accessible from Tokyo, Nagoya, or Osaka by Shinkansen 'bullet' train. Kyoto's beauty lies in its temples, shrines, festivals, gardens, cuisine, crafts, clothing and culture. Kyoto has evolved and changed over the centuries and continues to do so, since the 8th century. Kyoto is as much about you and your reaction and feelings to this unique city as the place itself.

International Symposium on GNSS is intended to bring together world-leading experts engaged in PNT and GNSS technologies including industry professionals, practitioners, academics and researchers to disseminate their latest research results and allow cross-disciplinary exchange of knowledge to further advance in this area. The program will include keynote addresses, oral presentations, interactive poster sessions, and an informative trade exhibition.

The Asia and Pacific Rim meeting of the CGSIC (Civil GPS Service Interface Committee) will be co-located with IS-GNSS 2015 to help improve understanding of the world trends in developing and deploying GNSS.

**Tentative Session Schedule (2015/10/23Rev.)**

<table>
<thead>
<tr>
<th>Room A Cap.: 400</th>
<th>Room B Cap.: 120</th>
<th>Room C Cap.: 80</th>
<th>Room D Cap.: 80</th>
</tr>
</thead>
<tbody>
<tr>
<td>Nov. 16 9:00–1800</td>
<td>9:00–1200 CSIC</td>
<td>9:00–1200 A–1 Automatic</td>
<td>9:00–1200 A–3 GNSS</td>
</tr>
<tr>
<td>Lunch</td>
<td>Key Note Speech</td>
<td>B–1 PPP–RTK</td>
<td>Lunch</td>
</tr>
<tr>
<td>1800–ICE Breaker</td>
<td>Prof B. Parkinson</td>
<td>14:00–1800 Q SUS meeting</td>
<td>1300–1800 B–2 Augmentation</td>
</tr>
<tr>
<td>1800–ICE Breaker</td>
<td>Plenary Session</td>
<td>Tsunami monitor</td>
<td>1300–1800 B–3 Earthquake Det</td>
</tr>

**Technical Paper**

- [ ] Presentation 15 minutes
- [ ] Q & A 5 minutes

**The Topics: Paper Number as of 10/19**

- [ ] Global Satellite Navigation Systems (GPS, GLONASS, BeiDou, Galileo) 16
- [ ] QZSS and Regional Systems, 5
- [ ] Augmentation Systems (SBAS, GBAS, etc.) 6
- [ ] Next Generation GNSS 5
- [ ] Inertial Systems for Positioning & Orientation, 1
- [ ] Signal Processing in Navigation Systems and Systems Integration, 6
- [ ] Interference, Jamming and Spoofing, 10
- [ ] GNSS Receivers and Antenna Technologies, 6
- [ ] Auto-Navigation (Car, Boat, UAV, Machine), 9
- [ ] Multi-sensor and Integrated Navigations, 7
- [ ] Aviation, Marine and Land Applications, 2
- [ ] Tsunami and Landslide Monitoring, 3
- [ ] Earthquake Prediction with GNSS Monitoring, 8
- [ ] Timing and Science Applications, 2
- [ ] Space Weather and Atmospheric Effects, 10
- [ ] Geodesy, Surveying, Mapping and RTK Appli., 16
- [ ] Precise Positioning with QZSS Data Transmission, 3
- [ ] Space Applications and Remote Sensing, 14
- [ ] Algorithms and Methods, 7
- [ ] Novel Applications, 2
- [ ] Other Topics Related to PNT, 7
